

# SCIENTIFIC SYMPOSIUM:

## Celebrating the life and legacy of Dr. Frank Plummer

**TUESDAY, DECEMBER 1, 2020 · 8:30AM - 1:30 PM (CST)**

Attend via Zoom: [bit.ly/ScientificSymposium](https://bit.ly/ScientificSymposium) · Meeting ID: 860 7423 7815 · Passcode: 596433

Join us on World AIDS Day for a scientific update on HIV and emerging viral infections, with reflections on Dr. Francis Plummer's contributions to science.

Dr. Plummer (1952 – 2020) was a world-renowned scientist, academic and HIV/AIDS researcher, best known for a collaboration in which he unravelled the mystery surrounding a group of women in Kenya who possessed natural immunity to HIV-1.

Dr. Plummer passed away in Nairobi, Kenya, where he took part in celebration of the 40th anniversary of the ground-breaking Manitoba/Kenya research.

All are welcome to attend.
